Shenzhen Toleda Digital Technologies Co.,Ltd

Who is Toleda

Shenzhen Toleda Digital Technologies Co., Ltd. is a National High-tech Enterprise, recognized as a "Specialized,Refined, Distinctive, and Innovative" SME, deeply focused on the smart wearable devices industry.

Since our founding in 2009, we have consistently driven our development through technological innovation, successfully transitioning from manufacturer of mobile storage to a core manufacturer in the smart wearable field. In 2013, we strategically entered the smart wearable sector, becoming one of the early pioneers in China's smart band and watch industry. Through sustained, high-intensity R&D investment, diversified product design, forward-looking feature innovation, and an unwavering commitment to quality and service, we have built a significant competitive advantage in the market.

We possess integrated end-to-end capabilities, from design, molding and R&D to large-scale manufacturing, and have accumulated over 300+ national patents and other intellectual property rights, establishing a robust core technology barrier. Our modern 5,000-square-meter R&D and production base in Shenzhen, staffed by a team of nearly 300 professionals, is equipped with 10 smart production lines, high-precision automated equipment, a professional reliability laboratory with more than 50 reliability tests. This ensures precision and reliability at every stage, from R&D to delivery. Our operational system is deeply integrated with the ISO9001 international quality management system, CRM, and ERP, driving efficient collaboration and continuous improvement through digital and refined management.

Our products and services have supported clients from over 100+ countries and regions worldwide. We are not merely a product manufacturer but a trusted innovation partner, providing professional OEM/ODM solutions for globally recognized brands. With an excellent product reputation, reliable delivery capabilities, and deep customer collaboration, we hold a significant position in the global smart wearable ecosystem.

Toleda is currently in a vibrant stage of rapid growth. We sincerely look forward to partnering with collaborators worldwide. Guided by our values of Honesty, Trust, Collaboration, Rigor, Innovation, and Agility, we aim to jointly shape the future of smart wearables.
